

## September Update

### Mentoring Plan

- Kacey attended the dean's council meeting to discuss the mentoring plan
- Kacey took notes and will meet with mentoring plan's team to discuss
- The revised mentoring plan will then be discussed at the faculty, Aps, and staff assembly for feedback
- Kacey will then come back to the dean's council meeting to present/discuss the revised plan

### Dean's council update

- Dean's council met on August 17, 2016.
- Agenda included the mentoring plan, doctoral committees ; courses cross-listing between MEZCOPH departments, branding, and new policy for IDC returns
- As always, the minutes are posted on the intranet

### Branding

- A couple of years ago, in collaboration with the College's Community Advisory Board (CAB) we came up with the College elevation speech : the 3 "Ps" that represent public health: Promotion , Prevention, Protection
- Since then, the College used the 3 "Ps" in our external communication
- Dean's council members agreed to use "Promote. Prevent. Protect "with all communications especially with email signature.
- It will be great if MEZCOPH faculty, APs, staff and students adopt this recommendation and use the 3" Ps" branding and add "Promote. Prevent. Protect" at the end of your email signature

### CEPH New Criteria

- Check CEPH new criteria @ CEPH.org
- The College will host a retreat for all teaching faculty early in January to brainstorm and explore innovative ideas as we plan for the implementation of the new CEPH criteria
