1501 N Campbell Ave, Tucson, Arizona 85724, United States

Integrative Touch is seeking Program Evaluators who will support data collection during the provision of wellness education and services in our Integrative Touch Hospital program. A Program Evaluator in this position should be comfortable in the hospital environment with emotional case work, and with the following tasks:

- Collecting and organizing data
- Assisting in the continued development of assessment and evaluation tools
- Tracking all activities during hospital service
- Conducting interviews and/or recording testimonials
- Attending project meetings and training's
- Digital research data collection
- Reviewing and editing data to ensure completeness and accuracy of information

Research Assistants would offer:

- One 6.5 hr/week shift in the hospital
- Minimum requirement of 1 year of service

More information about the services provided through this program can be found here: <https://www.integrativetouch.org/hospital-program>
