

Organization Name:

BRISA Center for the Environment

Organization Background:

The mission of the BRISA Center for the Environment is to work as authentic partners with communities towards environmental, energy, and climate resilience, innovation, and sustainability goals. We serve as a one-stop shop for hands-on technical assistance, multi-faceted training, and other eligible forms of assistance, resources, and support to program participants. The Center was funded in summer 2023 and is led by Dr. Paloma Beamer. It is based at the University of Arizona and will focus on Arizona and the southwest but may collaborate with partners and communities across the country.

Internship Project Title

Environmental, Energy, and Climate Justice Internship

Project Description:

The BRISA Center for the Environment will work directly with a wide array of partners in Arizona and potentially across the country to help communities reach environmental, energy, and climate resilience, innovation, and sustainability goals. This internship will support the center as they assist the community and partners in a range of ways. This may include but is not limited to: researching funding and energy justice opportunities, updating website and social media content, developing or finding resources for communities, and other related tasks. Interns will be trained as needed to complete these and other activities. The intern will primarily work with the associated director. The intern will use AI in certain tasks to maximize benefits to communities.

☐ Fall Semester

☐ Spring Semester

☐ Summer Term

☒ I want this listing to remain active indefinitely and we will accept applications from students for any upcoming semester.

☐ This listing is only for a specific semester/term: _____

Where:

Organization Mailing Address: 1656 E. Mabel St., Room 116, Tucson, AZ

Address where Student will work (if different from above): *Click or tap here to enter text.*

☒ Check here if the student may have the option to work remotely from a site not listed above for all or part of this project.

Student Characteristics:

The ideal student will have an interest or background in environmental health and/or environmental, energy, or climate justice. They should be detail oriented and have interest in learning about new topics and skills related to the project. Fluency in Spanish is preferred but not required.

Level of Expertise Needed: *Do you wish to request an MPH program intern or an undergraduate public health program intern?*

Undergraduate: The internship for undergraduates should provide an experience that allows students to incorporate classroom learning into public health practice.

Graduate: Applied experiences for graduate students should require application of advanced knowledge and skills to the solution of health problems and the production of at least two agency-based deliverables.

Both experiences prepare students for future employment.
