Arizona Youth Partnership

Organization Name:

Arizona Youth Partnership

Organization Background:

AZYP was founded in 1990 by a group of concerned Pima County citizens who sought to provide rural communities access to the services available in the Tucson metro area. In 2006, AZYP expanded to serve rural communities across the whole state of Arizona to solve local issues. AZYP builds a solid foundation for youth and families by partnering with Arizona communities to prevent and solve local issues such as substance abuse, youth homelessness, teen pregnancy, challenging family dynamics, and lack of educational opportunities.

AZYP offers a variety of programs; Wyman's Teen Outreach Program (TOP), Healthy Relationship Education (HRE), Summer Leadership Institution (SLI), Stronger Families Project (SFP), and Wake-Up! Of those 5 programs all except for our Wake Up! Program are of no charge to our partners and participants. Our Youth and Family programs use various curriculums when working with youth and families in schools, group homes, detention centers, youth homeless shelters and other places where youth gather. AZYP has facilitated programs to over 5,000 youth yearly throughout Arizona.

Internship Project Title

Youth and Family Program Intern

Project Description:

Describe the project fully. What is the scope of desired/expected activities? Are there any specialized skills needed or necessary to do the job? List those who will be involved (units, departments, etc). What are the expected outcomes? In addition, are there other relevant project deadlines or work schedule expectations applicants should be aware of before applying?

As an intern with AZYP, the intern will be scheduled with various Youth and Family Educators observing the youth and family programs. During this time, the intern will have the opportunity to learn the curriculum used as well as engage with the youth and

families enrolled in the program. Additionally, the intern would have the opportunity to create their own lessons/activities/lectures to be facilitated in the program they are scheduled to during the semester. The purpose of teaming interns with staff members is for the intern to get a hands-on experience working with families and youth in the community. This will give them the opportunity to see the challenges the community faces with substance use, poverty and/or challenging family dynamics. If an intern is interested in the Wake Up! diversion program, please be aware sessions are the first Saturday of each month and one of the sessions occur in the late evenings 8:00-10:00pm or 10:00-12:00am at BUMC (based on participant enrollment). Finally, interns would be able to attend community and agency trainings as they become available during the semester.

Internship project keywords (check all that apply). These keywords help students search for internships in our database based on their areas of interest:

- | | |
|--|---|
| ☐ Health Disparities | ☐ Maternal/Infant Health |
| ☐ Public Health Preparedness | ☐ Tobacco Use |
| ☒ Collaborations with Community | ☐ Injury/Violence Prevention |

When: When do you want the work done? Check all that apply.

- ☐Fall Semester 2017
- ☐Spring Semester 2018
- ☐Summer 2018
- ☒I want this listing to remain active indefinitely and we will accept applications from students for any upcoming semester.

Where:

Organization Mailing Address: 7575 W. Twin Peaks Rd. Tucson, AZ 85743

Address where Student will work (if different from above): [Click or tap here to enter text.](#)

☒Check here if the student may have the option to work remotely from a site not listed above for all or part of this project.

Student Characteristics:

An interested intern should have basic knowledge about Tucson and the surrounding areas as well as knowledge of trends in substance use and relationships among teens. Intern needs to be open minded as our participants vary in SES; a person comfortable with public speaking is preferred.

Level of Expertise Needed: Do you wish to request an MPH program intern or an undergraduate public health program intern? Note: The field-based internship for undergraduates should provide an experience that allows students to incorporate classroom learning into public health practice. Graduate student internships differ as the students should be required to apply advanced knowledge and skills to the solution of health problems. Both experiences prepare students for future employment.

Supervision

Kelsey Gutschow, Youth and Family Outreach Coordinator.

Kelsey has experience supervising interns at AZYP and has a background over 5 years in public health, community programs and prevention curriculums.

Compensation/Benefits

Once internship is complete, if positions are available within AZYP interns are welcomed and encouraged to apply. AZYP will pay for interns to receive their finger print clearance card as well as CPR/First Aid. Finally, the supervisor is always available for future recommendations.

Application Contact Information

Interested intern should contact Kelsey by email, kelsey@azyp.org, please send resume
